

Craft Market Digital Prep Checklist

Before the Market

One Week Before

- [] Update your social media bio with the market name, date, and your stall number
- [] Post 2-3 times about the market: "I'll be at [market name] on [date]"
- [] Create an Instagram Story countdown sticker
- [] Set up a Square, SumUp, or iZettle card reader (charge it)
- [] Create a QR code linking to your shop or website (free: [qr-code-generator.com](https://www.qr-code-generator.com/))
- [] Print the QR code on A5 card and laminate if possible
- [] Check your mobile data — you'll need signal for card payments

Night Before

- [] Charge card reader and phone to 100%
- [] Pack portable phone charger (power bank)
- [] Screenshot your price list (in case of no signal)
- [] Pack business cards with your website and social handle

At the Market

- [] Take 3-5 photos of your stall setup when it looks its best
- [] Post a "live from the market" Instagram Story in the first hour
- [] Add a sign-up sheet or QR code to your email list
- [] Note down any questions buyers ask — these become FAQs and content ideas

After the Market

- [] Post a "Thank you for visiting" post with a market photo
- [] Share any kind comments or reviews customers gave you
- [] Update stock levels on your online shop
- [] Add new email sign-ups to your mailing list
- [] Send a follow-up email if you have customer emails: "Great to meet you at [market]"
- [] Note what sold best and what didn't — inform your next market selection

Your Digital Stall Kit

Card reader | Phone + charger | Power bank | QR code print | Business cards | Sign-up sheet | Price list screenshot | Social media logged in and ready
