

Craft Business Instagram Content Calendar Template

How to Use This Calendar

Fill in one week at a time. Batch your content creation on one day each week — this saves time and reduces the pressure to post every day.

The 5-Post Weekly Formula

Day	Content Type	Caption Formula
Monday	Process / Behind the scenes	"Here's how I make [product]..."
Tuesday	Product showcase	"Meet [product name] — [one sentence description]"
Wednesday	Personal / Story	"Why I started making [craft]..."
Thursday	Customer / Social proof	"This [product] went to [location/occasion]..."
Friday	Shop / CTA	"Available now — link in bio"

Monthly Content Themes

January: New year, fresh start — new collections, goals, behind the scenes.

February: Valentine's Day — gifts, love, craft as care.

March: Spring — seasonal materials, markets, lighter colours.

April-May: Outdoor markets, craft fairs, new season.

June: Father's Day, summer gifting.

July-August: Holiday buyers, summer craft.

September: Autumn launch, new collections.

October: Halloween, earthy tones, harvest themes.

November: Christmas gift guides, pre-order campaigns.

December: Last posting dates, gift wrapping, New Year reflection.

Hashtag Strategy

Use 5-10 hashtags per post. Mix large (#handmade — 100M+), medium (#handmadeceramics — 1M), and small (#ukpottery — 50K). Small niche hashtags often drive the best engagement for craft businesses.

Weekly Planning Template

Week of: _____

Monday post idea: _____

Tuesday post idea: _____

Wednesday post idea: _____

Thursday post idea: _____

Friday post idea: _____

This week's CTA (what do I want people to do?): _____
